

Actuarial Services for Employers and Trustees with Defined Benefit Pension Schemes

We partner with employers and trustees to resolve defined benefit pension challenges, delivering independent, practical actuarial advice tailored to your scheme objectives. Our specialist teams combine deep DB market knowledge with a nimble, personal approach to deliver pragmatic solutions across strategy, investment, longevity, liability management and buyout execution.

Our services:

- Strategic Actuarial Advice for Employers — Long-term funding plans, scenario testing and staged de-risking roadmaps.
- DB Pension Endgame Planning — Endgame strategy design, cashflow modelling and governance roadmaps.
- Open DB Schemes — Contribution strategy, accrual design and risk-sharing advice.
- Corporate Transactions — Pension due diligence, deficit quantification and negotiation support.
- Investment Advice — Strategic asset allocation, LDI design and manager selection.
- Liability Management — Cash commutation, pension increase exchange and enhanced transfer programmes.
- Bulk Annuities Buy-in and Buyout Support — Transaction readiness, insurer engagement and tender management.
- Scheme Actuary Services for Trustees — Statutory valuations, funding negotiations and trustee governance.
- Longevity Analyses — Data-driven mortality and longevity reporting.
