

Our expertise

At Congruent, our senior actuaries specialise in cases that may fall outside the scope or interest of other firms. We are regularly involved in complex, standalone cases that require extensive actuarial and industry knowledge.

Whether you are a business, trade body, regulator, insurer, solicitor, or individual, we offer a responsive and professional service for one-off calculations and bespoke reports.

Our combination of actuarial expertise and proprietary software enables us to deliver high-quality, efficient, and cost-effective solutions.

We welcome enquiries of any size or complexity.
